Implicit supports both individual and collaborative work, either in an open-plan or private office space. A juxtaposed pedestal next to the desk expands the workspace. All Implicit models are compatible with a wide range of Steelcase desks.

A mobile pedestal with a top cushion provides a seat for a quick chat between colleagues.

The broad statement of line includes Implicit Lease – a pedestal designed for today's nomadic worker. With a PET-lined bag drop, users can quickly settle into a space.
