**Share It**  
Storage

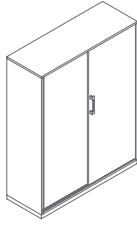

Share It supports individuals and groups with hardworking storage solutions that offer workers choice and control over their environment, while increasing real estate efficiency. Its modularity makes it easy to structure team spaces and to save valuable square meters. In private offices, it also provides a high level of customisation, offering various options.

\* On glides

Single and modular units (bottom, middle, top). Available in all closure types.

**S** = Single unit: 2FH – 6FH

**B** = Modular bottom unit: 1FH – 4FH

**M** = Modular middle unit: 1FH – 2FH

**T** = Modular top unit: 1FH – 4FH

## Applications

### **Structure for Team Spaces**

Thanks to its modularity, Share It makes it easy to structure team spaces. Cupboards for personal and team storage can be used as space dividers, allowing for high-traffic areas to be placed adjacent to focus areas. It also helps users balance privacy and contact with others, even in a large team space.

### **Supports Collaboration**

Collaboration is important. Informal discussions in the office are often a source of new ideas and creativity. Share It offers many different combinations to support instant collaboration. Medium-height cupboards are particularly convenient for impromptu meetings.

### **Secured Space**

Technology gives people choice and control over where they work. At the same time, individual spaces at work are shrinking, yet research shows that personal space is incredibly important to people. Share It offers secure lockers for dedicated personal storage or shared use, providing complete peace of mind.

### **Fosters Concentration**

The open plan is known to boost collaboration, build relationships and spark new ideas. With improved communication and increased transparency, people are seeking ways to control their privacy. And the number one distraction in the workplace is no longer visual – it's noise.

Share It acoustic backs and fronts improve the acoustical performance (rating coefficient: 0,55) of your workspace while providing a pleasing aesthetic.
