

CG_1
Cory Grosser, USA

coalesse®

Borderless.

CG_1 is like an open palette. Its simple surfaces can be transformed with a wide choice of materials, from a clean monolith to a two-toned statement of contrast. Therefore CG_1 is a true crossover.

————— Tables are seldom so expressive. Whatever your application, CG_1 can be selected in a wide range of materials. Your choices abound. Laminate, veneer, glass, painted aluminum, wood and ultra solid surface.

————— CG_1 can be dressed up or down. Few tables of such simple grace offer so many possibilities of interpretation.

————— Sophistication is often best expressed in finely crafted simplicity. The CG_1 occasional table is perfectly proportioned and versatile. It fits sleekly into any live/work social setting.

“I’m really interested in this idea of the narrative: that objects should have a small story. So we don’t really design the object, but we design the story too.”

— *Cory Grosser*
